Child/Adolescent or Caregiver Interview

SAMHSA's Performance Accountability and Reporting System (SPARS)
March 2019

Used when either the child / adolescent (17 years old or younger); or the caregiver is being interviewed on behalf of the child or adolescent. This version includes the question stems for both the child/adolescent and caregiver; the interviewer would adjust the question according to who is being interviewed.

Please note – Either the child or the child's caregiver must be interviewed for the purposes of the SPARS data collection; interviews of both individuals **are not required**. The table below describes the appropriate interviewee and criteria.

| Interviewee / Respondent | Criteria |
|------------------------------------------------------------------------------------------------|---------------------------------------|
| 1. Child or Adolescent | Child age 11 to 17 years old |
| 2. Caregiver (on behalf of the child / adolescent) | Child age 10 and younger |
| 3. Either the child / adolescent <i>or</i> the Caregiver (on behalf of the child / adolescent) | Dependent on who is being interviewed |

Note: If possible, please attempt to maintain consistency across client interviews to avoid problems related to inter-rater reliability; i.e., if the child is interviewed initially, the child should be interviewed for reassessments and for the duration of his/her treatment.

General Instructions

1. Before starting the interview, use a calendar to mark off the past 30 calendar days since many of the questions refer to the past 30 days / 4 weeks.
2. At the beginning of each section, introduce the next set of questions, (e.g., “Now, I’m going to ask you some questions about...”).
3. Read each question as it is written. Instructions written in all CAPITALS and *italicized* should not be read to the client.
4. Read response categories that appear in sentence-case lettering, which is a normal mix of upper-case and lower-case (e.g., Central American or Strongly Disagree). Do NOT read response categories that are in ALL CAPITAL letters.
 - a. If all response categories are in ALL CAPITAL letters, ask the question open-ended; do NOT read any of the response categories listed.
